

# Saturday's are for the Birds!!!

## May 28, 2011, Salamonie Interpretive Center Salamonie Reservoir

**9:00am - Let's Go Birding!** Bring the family and your binoculars to meet us in front of the Interpretive Center. We'll be hiking the area to see how many species of birds we can find. We'll even be giving away one field guide!

**11:30am - 2:45pm - Join us at the Interpretive Center anytime during these hours:**

**Take the Indiana Young Birders Club Bird I.D. Quiz!** Come take our quiz to see how good you are at using a field guide for a chance to win a Kaufman Field Guide to the Birds of North America of your very own. Field Guide winners will be posted at 4pm. You do not have to be present to win. There will be a different quiz for ages 3 - 9 and one for those ages 10 - 18.

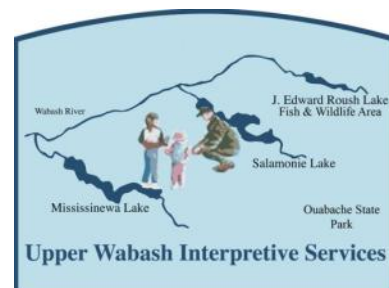

**Make a Hummingbird Nest!** Unfortunately, if you find a hummingbird nest in the wild, you can't take it home. This is an awesome chance to make a replica that could fool even the smartest bird watchers.

**View Birds up Close.** Enjoy picking out the identifying characteristics of birds right outside the Interpretive Center viewing windows.

**3:00pm - Meet a Live Screech Owl and Kestrel!** Join us at the Interpretive Center to meet our resident raptors and learn about Upper Wabash Interpretive Services plans to build a new outdoor home for these birds.

**4:30pm - Let's Go Birding!** Bring the family and your binoculars to meet us in front of the Interpretive Center. We'll be hiking the area to see how many species of birds we can find. We'll even be giving away one field guide!

**7:00pm - Movie Time!** Bring your family to the Interpretive Center and join us for the movie **HOOT!** This is an awesome family movie about some great kids with big hearts for saving a family of owls. You can also enter for a chance to win a Kaufman Field Guide to the Birds of North America. Winner will be announced at the end of the movie. Bring a pillow and blanket to make yourself more comfortable.
